# CARRY

---

---

## BACKPANEL

---

## LIGHTWIRE FRAME | HDPE SUSPENSION

---

## HARNESS SHOULDER STRAP

## LIGHTWIRE FRAME | HDPE SUSPENSION

- + LightWire peripheral frame (30L only)
- + 1.2mm HDPE framesheet

## BACKPANEL

- + Snow shedding material to reduce ice/snow buildup

## HARNESS

- + Contoured EVA foam harness
- + GPS/Radio webbing attachment points
- + Zippered insulated hydration hose sleeve
- + Adjustable sternum strap with whistle

# SIZING / FIT

## WOMEN'S SPECIFIC FIT

- + Shorter torso length
- + Narrower, shorter harness with curves designed to accommodate most women's necks, shoulders and chests
- + A hipbelt designed to wrap naturally around the curves of a woman's hips, offering better load stabilization and support

## HARNESS FIT

- + The harness straps should wrap fully around the shoulders with no gaps between the pack and back. The padded part of the harness straps should end at 2"/5 cm or more below the armpits without topping out and the sternum strap adjusted to approximately 2"/5 cm below the collarbone.

# FEATURES

## STOWAWAY HELMET CARRY

30L / 20L

- + All Kamber | Kresta packs feature a stowable helmet carry system.
- + The helmet carry is stowed in a hook-and-loop pocket on the backpanel. Remove the helmet carry and stretch it over your helmet, then secure the plastic hooks to the cord loops located where the harness straps connect to the backpanel.

## BACKPANEL ACCESS

30L

- + Dual zippered backpanel entry into the Kamber | Kresta main compartment provides quick and convenient access to internal contents.

## SCRATCH FREE GOGGLE POCKET

30L / 20L

- + The Kamber | Kresta feature a scratch-free fleece lined pocket at the top of the pack. These pockets are perfect for goggles, sunglasses and other fragile gear.

## AVALANCHE SAFETY COMPARTMENT

30L / 20L

- + On Kamber | Kresta 30L packs, the extra large J-zip front panel provides access to a dedicated avalanche safety compartment with separate probe, shovel handle sleeves and shovel head storage provides organization of and quick access to snow safety gear.
- + On Kamber | Kresta 20L packs, the avalanche sleeve is integrated in the main compartment, accessed through the front panel.

## SINGLE ICE TOOL CARRY

30L / 20L

The tuckaway ice tool attachment loops and bungee tieoffs provide secure tool attachment.

- 1 Slide the tool shaft through the top of the ice tool loop and flip the shaft up toward the top of the pack.
- 2 Loosen the bungee cord lock and route the tool handle through the bungee. Tighten the cord lock nesting it into the Y-clip to secure the tool into place.
- 3 Reverse to remove

# FEATURES

## A-FRAME / DIAGONAL SKI CARRY

### A-FRAME SKI CARRY

30L

Dual, lower reinforced ski carry loops and upper reinforced carry/compression straps combine for A-frame style ski carry.

- 1 Slip the ski tails through the lower reinforced ski carry loops tips up.
- 2 Clip the upper carry/compression straps around the skis.
- 3 Re-engage the buckles and tension the straps around the skis for stable A-frame ski carry.
- 4 Reverse to remove skis

### DIAGONAL SKI CARRY

30L / 20L

Diagonal ski carry utilizes one side of the bottom front panel webbing and secures on the opposite side of the top front panel webbing.

- 1 Loosen lower webbing via the slider buckle, slip ski tails into position beneath the reinforced area of the strap and re-tension strap securely.
- 2 Unclip the top carry straps via the glove-friendly buckle beneath the protective fabric loop, place upper portion of ski beneath the reinforced area of the opposite strap and reattach the buckle.
- 3 Use the cam-locking slider buckle and webbing on the side of the pack to tension the skis into place for stable carry.
- 4 Reverse to remove skis from the pack

## HORIZONTAL / VERTICAL SNOWBOARD CARRY

### VERTICAL SNOWBOARD CARRY

30L / 20L

Dual upper and lower reinforced strap wings on the reinforced fabric front panel of the Soelden | Sopris provide stable vertical snowboard carry.

- 1 Undo lower webbing strap completely via the slider buckle, place snowboard bindings beneath the rear binding and tension securely into place.
- 2 Unclip the top carry straps via the glove friendly buckle beneath the protective fabric loop and place upper portion of snowboard beneath the reinforced area of the opposite strap and reattach the buckle, tensioning the strap into place across the snowboard and using the cam-lock slider buckle (A-frame ski carry) to tension for stable carry.
- 3 Reverse to remove

### HORIZONTAL SNOWBOARD CARRY

30L / 20L

Reinforced hipbelt wings allow you to carry your snowboard between your back and the backpanel of the pack to prevent damage from sharp edges.

- 1 Remove the pack and place it on the ground with the foam backpanel surface facing up
- 2 Slide your snowboard through the harness straps with the base surface facing up (your bindings should face the ground) until it the middle of the snowboard lines up with the middle of the pack's backpanel
- 3 Lift the pack from the ground, taking care to keep the snowboard balanced so that it does not slip out of the harness straps.
- 4 Put the pack on and buckle the sternum and hipbelt straps to complete the process
- 5 To reverse the process, remove your pack and set it on the ground, take care to keep your snowboard balanced so that it does not slip out from the harness straps, and slide the snowboard out.
